SUMMARY

Art director and designer with 15+ years of agency, studio, and in-house experience bringing visual craft and strong concepts to a wide range of brands, including Netflix, STARZ, AstraZeneca, GSK, and WOW! Internet. Moves easily between accounts and project types, from brand campaigns and websites to social content and presentations, adapting tone and style to fit each brand. Turns creative briefs and strategy into original, on-brand work built to perform, and carries it from first concept through polished execution. Presents and defends creative decisions with confidence to internal teams and clients. Brings added range in UX/web design, front-end development, and motion, which helps design intent survive all the way to launch. Uses generative AI tools (Midjourney, Adobe Firefly, Claude) to explore more ideas and move faster, while keeping the thinking and the craft human.
